

LUBRICATING SOLUTIONS FOR SUGAR MILL MACHINERY

APPLICATIONS	PRODUCT NAME	SPECIFICATIONS	BENEFITS
Conveyor Chain Bearings	MFG 460 EP Mineral Oil based Lithium Complex Grease	NLGI # 2 -20 to +180°c	<ul> <li>Exhibits good EP &amp; anti-wear properties</li> <li>Guards against rust &amp; corrosion</li> <li>Excellent resistant to water</li> </ul>
Conveyor Chains	STENOL® 50 PLUS Synthetic High Temperature Chain Oil	Viscosity @ 40°c 180 cst Flash Point +270°c	<ul> <li>Reduces wear &amp; tear</li> <li>Low evaporation rate</li> <li>Good penetration properties provide lubrication in hard to reach areas</li> </ul>
Conveyor Chains	STENOL® 220 High Performance Synthetic Chain Oil	Viscosity @ 40°c 220 cst Flash Point +280°c	<ul> <li>Minimal residue formation &amp; carbonization</li> <li>No dripping from chains</li> <li>Reduces relubrication intervals due to high oxidation stability</li> </ul>
Gear Couplings (High Speed), Motors, Drives, Pumps, Plummer Blocks	SG 180 Mineral Oil based Lithium Calcium Grease	NLGI # 2 -20 to +140°c	<ul> <li>Excellent lubricating &amp; Shear Stability</li> <li>Properties</li> <li>Offers good protection against corrosion &amp; ageing</li> </ul>
Gear Couplings (Low Speed)	SG 500 Mineral Oil based Lithium Calcium Grease	NLGI # 2 -20 to +150°c	<ul> <li>Withstands heavy loads without disintegration</li> <li>Guards against rust &amp; corrosion</li> </ul>
Open Gears	SprayLube 2500 Premium Sprayable Grease for Open Gears	NLGI #00 -25 to +180°c	<ul> <li>Easily sprayable</li> <li>Excellent adhesion to Gear tooth flanks even under heavily loaded conditions</li> <li>Good protection against rust &amp; corrosion</li> </ul>
Journal Bearings	SMG Pemium Mineral Oil based Aluminum Complex Grease	NLGI # 1 -25 to +180°c	<ul> <li>Withstands shock loads &amp; pressures</li> <li>Does not contain lead or Harmful metals</li> <li>Does not harden and cause frictional drag</li> </ul>
Supporting Bearings	SG 1000 M 50 MoS <sub>2</sub> based Water Resistant grease for high load applications	NLGI # 2 -20 to +150°c	<ul> <li>Outstanding shear stability</li> <li>MoS<sub>2</sub> provides good anti-wear and load carrying capabilities</li> <li>Good pumpability</li> </ul>

Antiseize & Assembly Pastes For threaded connections of Sugar Mill.	NTC Nickel based high temperature anti-seize paste Kopal® Copper Based High temperature paste AS 10 Moly based anti-seize paste	NLGI # 2 -30 to +1400°c NLGI # 2/1 -30 to +1100°c NLGI # 2/3 -35 to +450°c	<ul> <li>Prevents seizures at high temperatures</li> <li>Saves threaded parts from galling, distortion and breaking.</li> <li>Prevents from rust &amp; corrosion.</li> </ul>
Fibrizer bearing, ID & FD Fan Bearings, Cane cutter, Leveler & centrifuge bearings	BRB 30 EP Moly Grease	NLGI # 2 -20 to +150°c	<ul> <li>Withstands extreme pressure and high loads.</li> <li>Good shear stability</li> <li>Reduces friction &amp; wear</li> <li>Provides adequate rust protection</li> <li>Extends relubrication cycle as MoS<sub>2</sub> provides solid lubricating film.</li> </ul>
Baggas Carrier Pin & Bush	Ultratack <sup>®</sup> Mill Grease 460 High Viscosity Calcium Sulphonate Grease	NLGI # 2 -20 to +150°c	<ul> <li>Excellent water resistance.</li> <li>High load carrying capacity.</li> <li>Excellent shear stability.</li> <li>High drop point.</li> <li>Excellent anti-wear properties.</li> </ul>
Gearbox	MPG 0/00 EPLF Multi-purpose Lead Free Fluid Grease	NLGI # 0/00 -20 to +150°c	<ul> <li>Extreme pressure additives provide high load carrying capacity.</li> <li>Prevents leakages of Gear Boxes</li> </ul>
Air Compressor Bearings	MPG 3 Lithium Complex Grease	NLGI # 3 -20 to +160°c	<ul> <li>Excellent Shear Stability</li> <li>Offers good protection against corrosion &amp; ageing</li> </ul>
Wire Ropes & Chain Drives	CRG 100 Grade 1	NLGI # 1  -20 to +160°c Particle Size >= 5	<ul> <li>Excellent adhesive properties even under temperature changes</li> <li>Good corrosion protection</li> <li>Water resistant</li> </ul>
Turbine Blades	AS 2000 Synergestic Blend of MoS <sub>2</sub> with friction Modifiers	Refined Moly Powder -185 to +450°c	<ul> <li>Excellent lubrication property.</li> <li>Low co-efficient of friction.</li> <li>Anti-galling and Antifretting</li> </ul>
Rudder Lubrication in Sugar Packing Division	Beslux Caplex M2 Atox High Performance Food Grad Grease	NLGI # 2 -20 to +160°c	<ul> <li>NSF Approved</li> <li>Odor free &amp; non-toxic</li> <li>Excellent water resistance</li> <li>High sealing capacity and resistance to heavy loads</li> </ul>

## **BUSINESS VERTICALS**

- Automotive
- Food & Pharmaceutical
- · Forging · Metal Forming
- Off Shore & On Shore Drilling
  - Power
     Sponge Iron
    - · Steel · Textile

## APPLICATION AREAS

- · Bearings · Gears
- Conveyor Chain
  - Nuts & Bolt
  - Metal Cutting
- Metal Forming
- Deep Drawing

## **PRODUCT LINE**

- Speciality Lubricants
   Hot Forging Lubricants • Metal Working Fluids
- Metal Forming Lubricants
   Cleaners
  - & Degreasers Rust Preventives
    - Thread Dope Compounds
      - Maintenance, Repairs
      - & Operation Products

To choose the MOLYGRAPH® Product adapted to your requirements, do not hesitate to consult us

**Authorised Distributors:** 

**Anand Engineers Pvt. Ltd.** 

66 M.I.D.C., Road No.13, Andheri (E), Mumbai - 400 093. INDIA.
